Executive Summary

Working with campus leadership, staff provides support related to coordination of campus EHS activities. These activities consist of a wide range of programs including new construction design reviews (Title 24), Fire/Life Safety Inspections (Title 19), emergency response, workplace injury reduction, training for safe work practices, laboratory safety inspections, hazardous and radiological waste pick-up, research safety, occupational safety, industrial hygiene, environmental health, defensive driving, environmental compliance, and construction/contractor safety programs. To support the achievement of established organizational objectives, EHS staff facilitates a variety of program coordination functions, which include:

- **Coordination of EHS-related committees**: Staff administers and/or supports multiple campus committees regarding environmental, health and safety (e.g., Laboratory Safety Committee, Institutional Biosafety Committee, Radiation Safety Committee, etc.).

- **Development and Coordination of EHS Communication Program**: Staff develops campus and community based EHS communication programs, including management of the department intranet site, development of fact sheets, and generation of periodic performance reports.

- **Development and Coordination of EHS Inspection, Assessment, and Compliance Monitoring Program**: Staff develops and implements a variety of compliance monitoring programs, including Laboratory Safety Inspections, Fire and Life Safety inspections, Environmental Compliance Monitoring, EHS program compliance reviews, Injury and Illness Prevention Plan (IIPP), Safety on Site (SOS) and CALOSHA compliance.

- **Development and Coordination of Training Programs**: Staff develops, conducts, and maintains training programs to ensure regulatory compliance and to assure that students, faculty, and staff understand risks and perform work tasks in a safe and environmentally responsible manner.

- **Development, Distribution, and Analysis of Performance Measurement Data**: Staff develops and communicates performance management reports to a variety of campus stakeholders. In addition, staff conducts detailed analysis of compliance, loss and performance data and utilizes information gathered to formulate organizational strategy.

- **Development, Implementation, and Management of Information Systems**: Staff works with University of California Office of the President (UCOP) Risk and Safety Solutions, administrative and DFA staff, to determine campus EHS information technology needs, as well as develops, implements, and maintains software applications to support organizational activities.

- **Development of Policy and Procedures**: Staff works with campus leadership, UCOP staff and specific departments to support the development and maintenance of campus wide EHS policies, programs, and procedures.

- **Management of EHS Compliance Oversight Activities**: Staff manages regulatory site inspections. (e.g., California Occupational Safety and Health Administration (CalOSHA), Orange County Health Department, Air Pollution Control District, etc.), coordination of citation/hazard abatement with Researchers, Facilities, Housing Services and other members of the campus community, including coordination of appeals, legal hearings, and reimbursement of monies paid as a result of citations. Staff serves as campus liaison with regulatory agencies and UCOP Risk Services staff.
