1. Program Description

The UCI Visitors & Minors in Labs and Shops program establishes guidelines for ensuring visitors’ safety while in potentially hazardous areas on campus. Program guidelines cover visitations ranging from passive tours to active research projects and note exceptions applicable to minors. Visitors and minors are not permitted in potentially hazardous work areas except as outlined below.

2. Scope

In the event that faculty, staff, or students bring a visitor to work, the supervisor must approve in advance. If approved, adequate steps must be taken to prevent injury or disruption to others at work.

Minors below the age of 14 must be restricted from hazardous work areas, due to their developing immune/neurological systems and their general lack of hazard recognition ability. Minors may be invited to university sponsored events (e.g. Bring Your Child to Work Day). However; careful attention must be given to work areas where any hazard is located.

3. Definitions

Biological Agents: Living organisms or products of living organisms such as viruses, bacteria, fungi, prions & parasites.

Biosafety Level (BSL) Containment Protocols: Biosafety Levels 1-4 as defined by the National Institutes for Health guidelines, describe containment practices for hazardous chemicals and dangerous materials, based on advice from the federal Centers for Disease Control and Prevention. Containment strategy is linked to the type of facility, appropriate engineering controls, safe work practices, and use of personal protective equipment.

- Biosafety Level 1 containment is prescribed for agents that are not known to cause disease in healthy adult humans.
- Biosafety Level 2 containment is prescribed for agents linked to human disease, but the disease is rarely serious; treatment is often available.
- Biosafety Level 3 containment is prescribed for agents that are linked to serious or lethal human disease; treatment may be available.

Controlled Substances: Narcotic and non-narcotic substances that are regulated under the federal Controlled Substances Act and the California Uniform Controlled Substances Act including but not limited to those substances listed in 21 CFR 1308.11-1308.15.
Laboratory: As used in the UC Policy Minors in Laboratories and Shops, “laboratory” refers to any part of a building used or intended to be used by the University for scientific or technical activities which may be hazardous; this includes teaching laboratories as well as research laboratories. The policy also covers off-campus facilities, on-and off-campus clinical facilities, and fieldwork locations where approved educational activities are conducted.

Minor: Anyone under the age of 18. (California Family Code §6500-6502).

Personal Protective Equipment (PPE): Items worn to minimize exposure to a variety of hazards. Examples of PPE include such items as lab coats, gloves, foot protection (steel-toed shoes), eye protection (safety glasses or goggles), protective hearing devices (earplugs, muffs), hard hats, respirators, fall protection harnesses, etc.

Potentially Hazardous Work Area: An area where hazardous substances (e.g. hazardous chemicals, biohazardous agents, radioisotopes) or physical hazards (e.g., radiation, lasers, moving machinery parts, extreme temperatures, electrical apparatus) are present.

Shop: As used in UC Policy Minors in Laboratories and Shops, a place where machinery and tools are used. “Shops” include but are not limited to engineering shops, art workshops, and other sites.

Visitor: Anyone who is not UCI faculty, UCI staff, or a UCI registered student.

Vivarium: A facility where live animals or plants are housed.

4. Responsibilities

The Chancellor or Director or designee is responsible for implementing UC Policy Minors in Laboratories and Shops and location-specific procedures.

Vice Chancellors, Deans, Directors, and Department Heads must assure that employees under their jurisdictions comply with this program.

Supervisors of hazardous work areas including Principal Investigators and Lab Managers must ensure all tenets of this policy are being followed for all visitors and minors. The University academic or staff employee who sponsors a non-student minor’s educational activity must certify adherence to this policy and local implementing procedures on the Minors Performing Research Registration Form.

The PI or supervisor must make an evaluation of each physical hazard present in the work environment (e.g., compressed gases, high voltage, extreme temperatures, excessive noise, lasers, etc.) the minor may encounter as part of their scheduled assignment in the laboratory and

(1) Review the physical hazards with the minor,
(2) Review safe operating procedures for the equipment with the minor,
(3) Review emergency procedures for the equipment with the minor, and
(4) Establish specific and explicit instructions for the scheduled assignment the minor is allowed to perform.

Human Resources: Any policy covered UC employee who oversees minors must have a criminal background check conducted in accordance with University policy and local procedures.

Noncompliance with the policy is handled in accordance with Personnel Policies for Staff Members (PPSM) policies 62-65 pertaining to disciplinary actions, Academic Personnel Manual (APM) policies 015-
016 pertaining to the Faculty Code of Conduct and administration of discipline; APM 140 and 150 pertaining to Non-Senate Academic Appointees, or Collective Bargaining Agreement.

**Environmental Health & Safety** is available for consultation on hazard assessments and mitigation of anyone on campus.

**Participant’s Parent or Guardian** Parent/guardian must sign campus required registration form, including a release of liability and hold-harmless agreement

**Under Age 18- Participant** The participant must undergo required training and complete campus required registration forms.

### 5. Program Components

**Visitor Restrictions Based on Activity**

Visitors are not permitted in potentially hazardous work areas unless they meet the following criteria:

- **Passing through** a potentially hazardous area (e.g. to reach an office area):
  - A University employee who is trained and knowledgeable of the area’s potential hazards escorts the visitor directly to the destination.
  - The visitor is protected from potential hazards as deemed appropriate by the area supervisor and is provided with and dons the necessary PPE.

- **Briefly touring** the potentially hazardous work area (e.g., class tours, donor presentations, parent showing work area to minor etc.):
  - Completed form must be maintained by the host department for three years or three years after a minor has turned eighteen.
  - Visitor is personally accompanied at all times by University employee who is trained and knowledgeable of the area’s potential hazards.
  - The trained University employee ensures that visitor is NOT placed into a situation where the health and safety of self or others may be compromised.
  - Visitor is provided and dons appropriate personal protective equipment.
  - For group tours, a safety briefing is provided to the group prior to entry.

- **Participating in** a university-sponsored function requiring more than intermittent presence in the work area (e.g., lab coursework, research, volunteering etc.):
  - Visitor completes [New Lab Worker Site Specific Training Checklist](https://example.com/checklist) and all components including SOPs, waste management, emergency evacuation, etc.
  - Visitor is under the direct supervision of a university employee at all times who is trained and knowledgeable of the hazards.
  - All visitor shall be provided appropriate safety training through both UCLC ([UCINetID](https://example.com/duo) and [DUO](https://example.com/duo) are required) and work unit specific training by the supervisor. The minimum UCLC requirements are:
    - Laboratory Safety Fundamentals,
    - Hazardous Waste,
  - (Exception: Visitors staying **under two weeks** are exempt from UCLC training if individual is **always** under direct supervision).
Visitor shall be provided with UCINetID and DUO requirements per campus policy. For more information please visit third party UCINetID through OIT.

Visitor is provided appropriate personal protective equipment and complies with UCOP PPE policy including long pants and closed-toe shoes. It is UCI policy that any one working in a location that has been assigned as a laboratory or technical area where the use or storage of hazardous materials occurs or where equipment may present a physical or chemical hazard shall be invited by their supervisor to join the lab’s LHAT. Once you are invited by the supervisor, log into LHAT at https://ehs.ucop.edu/lhat with active UCINetID.

Department Chair approval required for exceptions to this policy.

Minors in Labs and Shops

A. Minor children of laboratory personnel are not permitted in laboratories or shops except under one of the following conditions:
   ▪ In accordance with requirements of Section C below, or
   ▪ Laboratory/technical areas which have been designated and posted as free of physical or chemical hazards, or
   ▪ As part of a campus/department sponsored event, or
   ▪ For the purpose of escorting a minor child to/from an enclosed office/breakroom located within a laboratory or shop.

B. Minors are never permitted in any setting where research involving controlled substances is being performed, even if they are enrolled students. Persons under age 18 are not permitted in University of California vivaria unless their participation has been reviewed and approved by the campus Institutional Animal Care and Use Committee (IACUC) and the responsible vivarium facility manager based upon criteria established by the campus.

C. Minors between the ages of 14 and 18 are allowed in laboratory settings only when:
   ▪ They are students enrolled in courses listed in a campus course catalog or part of an approved and supervised tour, or
   ▪ They have written consent from their parent(s) or guardian(s); and,
   ▪ They have received the appropriate University of California safety training and the campus has documented that training; and
   ▪ They agree to strictly adhere to the campus or laboratory-specific requirements concerning Personal Protective Equipment (PPE); and,
   ▪ They are at all times under the direct supervision of a qualified adult designated for this responsibility.

D. Before their scheduled assignment in a laboratory begins, minors must be trained on specific hazards to which they may be exposed in the laboratory/shop, how to recognize those hazards, and how to protect themselves from those hazards. Minors must be trained on the contents of the laboratory-specific chemical hygiene plan and the standard operating procedures and emergency procedures applicable to their scheduled assignment. Additional training may be required for tasks that involve hazardous chemicals, biological agents, radioactive materials, research animals, and physical hazards. All training must be documented. Refer to the UC Policy on Laboratory Safety Training.

E. Legal Restrictions Regarding Certain Chemicals, Biological Materials and Radiation

Regulations prohibit minors from using certain chemical, biological, or radiological materials. There are also specific training requirements based on the materials a minor will be handling and/or exposed to. Restrictions on chemical, biological, and radiological materials are as follows.
<table>
<thead>
<tr>
<th>Chemical Activity</th>
<th>Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Prohibitions for Minors:</strong></td>
<td>Minors are prohibited from working with:</td>
</tr>
<tr>
<td>1. Highly hazardous material- including any pyrophorics, water reactives, potentially explosives, flammables more than 4L and acutely toxic compounds (oral LD_{50} LESS than or equal to 50 mg/kg and/or dermal LD_{50} LESS than or equal to 200 mg/kg, and/or an inhalation LC_{50} LESS than or equal to 2,000 mg/m³).</td>
<td></td>
</tr>
<tr>
<td>2. Cal-OSHA regulated carcinogens</td>
<td></td>
</tr>
<tr>
<td>3. International Agency for Research on cancer Group 1 or Group 2A carcinogens.</td>
<td></td>
</tr>
<tr>
<td>4. Controlled substances</td>
<td></td>
</tr>
<tr>
<td><strong>Biological Agents</strong></td>
<td>Minors ages 14-16 may never conduct work that may require BSL- 2, BSL-3 containment. They may enter a BSL-1 and 2 combined area provided there is NO contact with BSL-2 work.</td>
</tr>
<tr>
<td></td>
<td>Minors ages 16-18 may never work with or around BSL-3 however they may enter BSL-2 areas with appropriate medical training and constant supervision.</td>
</tr>
<tr>
<td><strong>Radioactivity or radiation producing machines</strong></td>
<td>Minors may not work with radioactive material or radiation-producing machines. Exceptions must be approved by the UCI Radiation Safety Officer.</td>
</tr>
<tr>
<td><strong>Physical Hazards</strong></td>
<td>Hazardous equipment, heavy machinery, high voltages, elevated pressures/temperatures or heights must be avoided.</td>
</tr>
</tbody>
</table>

**NOTE:** Any hazardous work here requires approval by Department Chair or School Dean. See Research Project Proposal Form.

Minors and parents/legal guardians must review and sign:

- Release of Liability and Hold harmless Agreement and Research Proposal form (only if the minor will be performing any continuous work or activity in the lab). Appendix A
- Rules for Minors in Lab and Shops Appendix B
- Potential Hazard Information sheet Appendix C
- Minors Research Proposal Registration Form Appendix D
- UC Waiver of Liability, Assumption of Risk, and Indemnity Agreement FORM GW17

Principal investigators/supervisors are responsible for the following with each minor:

- Review all emergency procedures with the supervisor.
- Be assigned a supervisor who will review the New Lab Worker Site Specific Training Checklist and ensure that criteria have been met.
- Minors of lab personnel must follow all guidelines required of other minors.
Note: Principal investigators/supervisors should assume minors need considerable training to understand safety documents such as Safety Data Sheets, Standard Operating Procedures etc. Supervisors should perform all training necessary to bring the minor to a safety awareness level comparable to that of trained lab personnel.

6. Reporting Requirements

Any conflicts resulting from implementation of the program shall be brought to the attention of the appropriate supervisory personnel and, if necessary, referred to the appropriate Vice Chancellor, Dean, or Director who shall make a final decision.

Appendix A

**Summary:** Waivers serve as evidence that an informed decision was made to assume the risks involved in an activity. The signer agrees not to hold the University responsible for injuries and losses that may arise out of the activity. Certain waivers have been approved for use by Office of the President, General Counsel. With the exception of filling in the appropriate blanks, waivers should not be modified without the specific approval of Risk Management.

Certain activities may require a special waiver or additional risk assessment. If you are unsure as to what waiver is needed for your particular activity or event, please contact Christopher Richmond at (949) 824-6510 or Quyen Levan at (949) 824-3257. Chris Taylor, Senior Loss Control Analyst (949) 824-8772

Minors must have an individual form signed by a parent or guardian. Christopher Richmond, Risk Manager, (949) 824-6510 for information and instructions.

**Requirements:**

University policy requires that the issuing department maintain the signed waivers for 3 years from the last date of the event. In the case of minors (under 18), waivers must be maintained for 2 years beyond the minor’s 18th birthday. When working with a group of children of close ages, e.g., 5th graders, the waivers may be maintained as a group and discarded 2 years after all members of that group be expected to have reached age 18.

**Need an expert?**

Christopher Richmond, Risk Manager, (949) 824-6510 or Quyen Levan, (949) 824-3257 or. Chris Taylor, Senior Loss Control Analyst (949) 824-8772

Notice: University policies, procedures and applicable collective bargaining agreements shall supersede information in this document or elsewhere on this site.
RELEASE OF LIABILITY, WAIVER OF CLAIMS, EXPRESS ASSUMPTION OF RISKS, AND HOLD HARMLESS AGREEMENT

I HAVE READ, UNDERSTAND, and INITIALED the documents Rules for a Minors Working in Laboratories and Shops and Potential Hazard Information Sheet describing the potential risks and dangers associated with my child’s research project. I fully understand that there are potential risks and hazards associated with exposure to hazardous materials or substances.

I AGREE TO ALLOW my minor child to participate on a scheduled assignment in the University of California laboratories and freely accept and assume all associated risks and hazards. I ALSO AGREE AND UNDERSTAND that my child’s research project may be suspended at any time, at the discretion of the University of California and its officers, agents, and employees, if the safety of my child, University of California employees and/or other volunteers at the University of California become a concern.

I, for myself and my estate, heirs, administrators, executors, and assigns, hereby release and hold harmless the State of California, the UC Board of Regents, and their officers, directors, employees, representatives, agents, and volunteers (collectively, the “Releases”), from any and all liability and responsibility whatsoever, however caused, for any and all damages, claims, or causes of action that I, my estate, heirs, administrators, executors, or assigns may have for any loss, illness, personal injury, death, or property damage arising out of, connected with, or in any manner pertaining to my child’s scheduled assignment in the University of California laboratories, whether caused by the negligence of Releases or otherwise. I further hereby agree to defend, indemnify and hold harmless the Releases from any judgment, settlement, loss, liability, damage, or costs, including court costs and attorney fees that Releases may incur.

In signing this agreement, I acknowledge and represent that I have read and understand it and that I sign it voluntarily and for full and adequate consideration, fully intending to be bound by the same.

RULES FOR VISITORS & MINORS IN LABORATORIES AND SHOPS

☐ Never participate on a scheduled assignment alone in any laboratory environment without direct, immediate adult supervision (if minor) from the sponsor or someone designated by the sponsor.

☐ Complete and follow safety training specific to the hazards in the laboratory.

☐ Always wear the personal protective equipment as directed and dispose of it appropriately. This personal protective equipment (PPE) includes goggles, gloves, laboratory coats/gowns, and other face/body protection as dictated by the hazard being worked with or around. Always remove PPE when leaving the work area.

☐ Always follow the instructions of the sponsor or laboratory supervisor.

☐ Always report any accident (regardless of severity) immediately to the sponsor or laboratory supervisor.

☐ Always keep your hands away from your face and wash them well with soap and water prior to leaving any laboratory area and after removing gloves.

☐ Never eat, drink, chew gum, apply lip balm, or touch contact lenses while in any laboratory environment.

☐ Always wear long pants that completely cover legs and closed-toe shoes while in any laboratory.

☐ Always wear clothing that reduces the amount of exposed skin.

☐ Always ask questions if you do not understand the safety requirements.

I AGREE TO SPONSOR (MINOR’S NAME) ____________________________, AND BY MY SIGNATURE BELOW, AGREE THAT:

- I have read, understand, and will adhere to the “Minors in Laboratories and Shops” Policy. The potential hazard information signature sheet is attached.
- I will ensure that this Minor’s Hazard Specific Safety Training is completed and documented.
- Personal protective equipment appropriate for, and specific to, laboratory hazards will be provided.
- This individual will be supervised at all times while in the laboratory and never left alone.
- My laboratory is in full compliance with all applicable University of California safety programs and regulations
- I understand that my failure to adhere to the “Minors in Laboratories and Shops” Policy may result in my receiving corrective action or discipline, up to and including dismissal.

Waiver of Liability, Assumption of Risk, and Indemnity Agreement

**Waiver:** In return for being permitted to participate in the following activity or program (“The Activity”), including any associated use of the premises, facilities, staff, equipment, transportation, and services of the University, I, for myself, heirs, personal representatives, and assigns, do hereby release, waive, discharge, and promise not to sue The Regents of the University of California, its directors, officers, employees, and agents (“The University”), from liability from any and all claims, including the negligence of The University, resulting in personal injury (including death), accidents or illnesses, and property loss, in connection with my participation in the Activity and any use of University premises and facilities.

**Description of Activity or Program:**

**Date(s):**

**Assumption of Risks:** Participation in The Activity carries with it certain inherent risks that cannot be eliminated regardless of the care taken to avoid injury. The specific risks vary from one activity to another, but the risks range from 1) minor injuries such as scratches, bruises, and sprains, to 2) major injuries such as eye injury, joint or bone injuries, heart attacks, and concussions, to 3) catastrophic injuries such as paralysis and death.

**Indemnification and Hold Harmless:** I also agree to indemnify and hold The University harmless from any and all claims, actions, suits, procedures, costs, expenses, damages and liabilities, including attorney’s fees, arising out of my involvement in The Activity, and to reimburse it for any such expenses incurred.

**Severability:** I further agree that this Waiver of Liability, Assumption of Risk, and Indemnity Agreement is intended to be as broad and inclusive as permitted by law, and that if any portion is held invalid the remaining portions will continue to have full legal force and effect.

**Governing Law and Jurisdiction:** This Agreement shall be governed by the laws of the State of California, and any disputes arising out of or in connection with this Agreement shall be under the exclusive jurisdiction of the Courts of the State of California.

**Acknowledgment of Understanding:** I have read this Waiver of Liability, Assumption of Risk, and Indemnity Agreement, fully understand its terms, and understand that I am giving up substantial rights, including my right to sue. I confirm that I am signing the agreement freely and voluntarily, and intend my signature to be a complete and unconditional release of all liability to the greatest extent allowed by law.
